

FUND OVERVIEW

- The Stutsman Community Fund will be a 501(c)(3) organization, the purpose of which will be to engage in, assist, and contribute money to exclusively charitable activities and opportunities within the communities of North Dakota connected to the Stutsman Wind Farm. The Stutsman Wind Farm is located in Stutsman and Barnes Counties and includes the townships of Rose, Spiritwood, Brimer, and Eckelson.
- During operations, the Community Fund will receive up to \$20,000* annually for 20 years to use towards charitable community projects and opportunities. It will be divided evenly amongst the communities within the Stutsman Wind Farm.
- Spending of the Community Fund will be at the direction of the Community Fund's board of directors, who will be landowners with a wind easement in each of the townships within the wind farm, as well as one at-large director from the community.
- The Community Fund will be operated by volunteers who are completely independent of the operation of the Stutsman Wind Farm.
- The goal of the Community Fund will be to provide direct benefit and value to the entire community touched by the Stutsman Wind Farm—not just the landowners participating in the wind farm.

*This figure is based on a formula of \$200/megawatt and may change based on the size of the project.

ABOUT GERONIMO ENERGY

Geronimo Energy is a utility-scale renewable energy development company headquartered in Minneapolis, Minnesota. Geronimo has developed over 1,600 megawatts of wind and solar projects that are either operational or currently under construction. Geronimo has a multi-gigawatt development pipeline of wind and solar projects in various stages of development throughout the United States. Geronimo provides custom renewable energy development solutions for utilities and corporations looking to harness renewable energy for business growth. With deep roots in agriculture, Geronimo prides itself on developing wind farms that are farmer-friendly, community-driven, and beneficial for rural communities.

STUTSMAN WIND FARM

The Stutsman Wind Farm is a 100 megawatt facility located in Stutsman and Barnes Counties, ND. It will generate enough clean, homegrown energy to power up to 36,000 homes each year and displace approximately 3.5 million tons of carbon dioxide throughout the life of the project.

The 100 MW Stutman Wind Farm footprint is projected to include between between 25 and 50 wind turbines.
